Attn: Ruth Fritz, Librarian

Dear Miss Fritz:

The U.S. Environmental Protection Agency is required by law to establish administrative records "at or near a facility at issue." This administrative record consists of information upon which the Agency bases its selection of a response action for a particular Superfund site.

By providing the public with greater access to these records, it is our hope that they will be better equipped to comment constructively on site activities and to understand the issues relating to the selection of the response action.

We appreciate having the Penns Grove Carneys Point Library as the designated administrative record facility for the NL Industries Superfund site. The enclosed record files, along with any future documents relating to technical activities at the site should be added to the Penns Grove Carneys Point Library's copy of the administrative record and be available for public review. The record files should be treated as a non-circulating references and should not be removed from your facility.

To ensure the receipt of the administrative record file, I would appreciate your completion of the attached Document Transmittal Acknowledgement form. Please return this form in the enclosed self-addressed, stamped envelope.

Again, I would like to thank you for your cooperation with the U.S. EPA in serving as a Field Repository. If you have any questions or comments, please contact Eugene Dominach at (908) 321-6666.

Sincerely,

Eugene Dominach
